It Takes Two to Talk is a program for parents of children (birth to five) who have language delays. Using a social interactionist perspective, *It Takes Two to Talk* emphasizes a child's everyday activities as the context for learning to communicate.

More Than Words program is also based on the same social interactionist perspective as *It Takes Two to Talk*. In addition to helping children to improve their communication skills, *More Than Words* incorporates current best practice guidelines, emphasizing the importance of affect, predictability, structure, and the use of visual supports to enhance learning in children with social communication difficulties.
